How to use Guetta-App

As you enter the [website](#), that's the first page you will see, you can copy and [paste a Youtube URL](#) to separate it, or [upload a mp3 file](#) of your computer to do it.

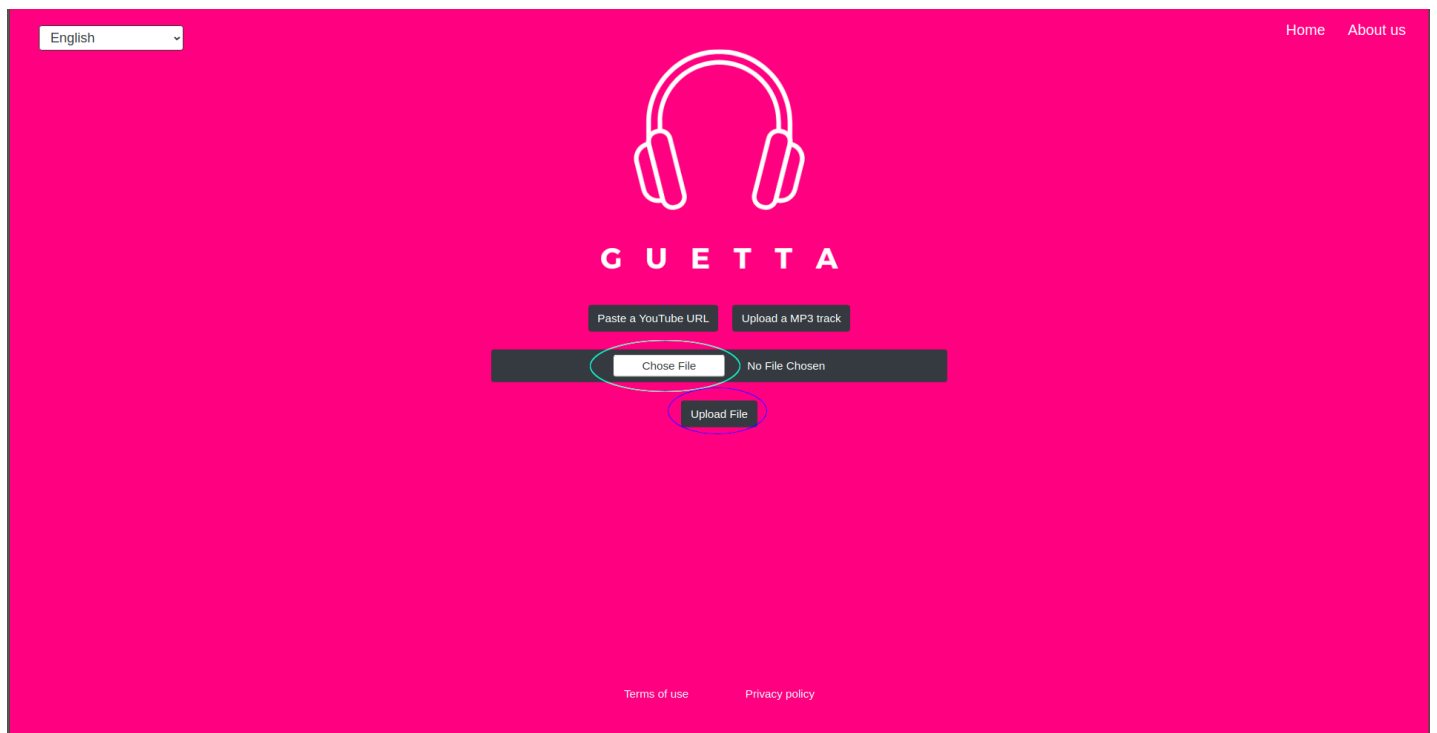

Case 1: Upload a Youtube URL

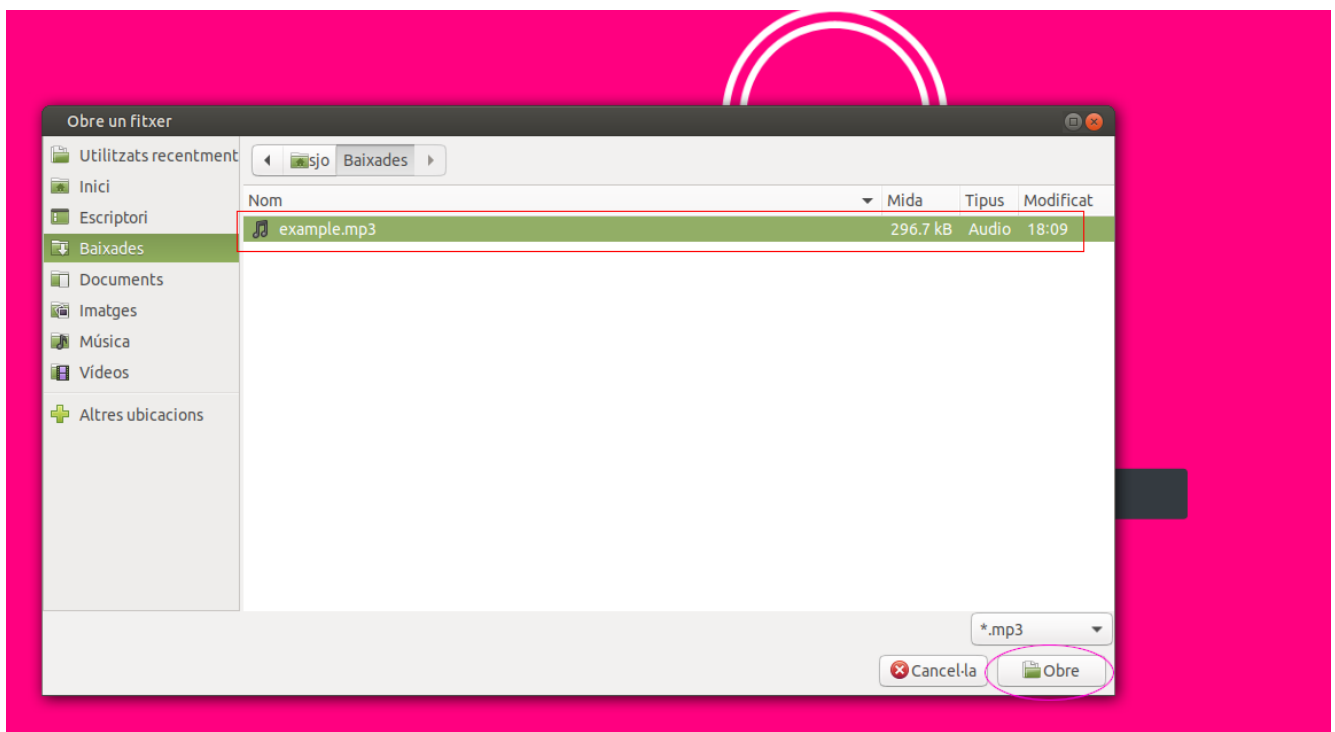

The screenshot shows the GUETTA website interface. At the top left is a language dropdown menu set to "English". At the top right are links for "Home" and "About us". In the center, there is a logo of headphones above the word "GUETTA". Below the logo are two buttons: "Paste a YouTube URL" and "Upload a MP3 track". A text input field contains the URL "https://www.youtube.com/watch?v=YfXLLT-yqQo", which is highlighted with a red oval. Below the input field is a red "Upload URL" button, also highlighted with a red oval. At the bottom of the page are links for "Terms of use" and "Privacy policy".

Here you paste the URL you copied before, and then, you click the Upload URL button.

Case 2: Upload an mp3 file

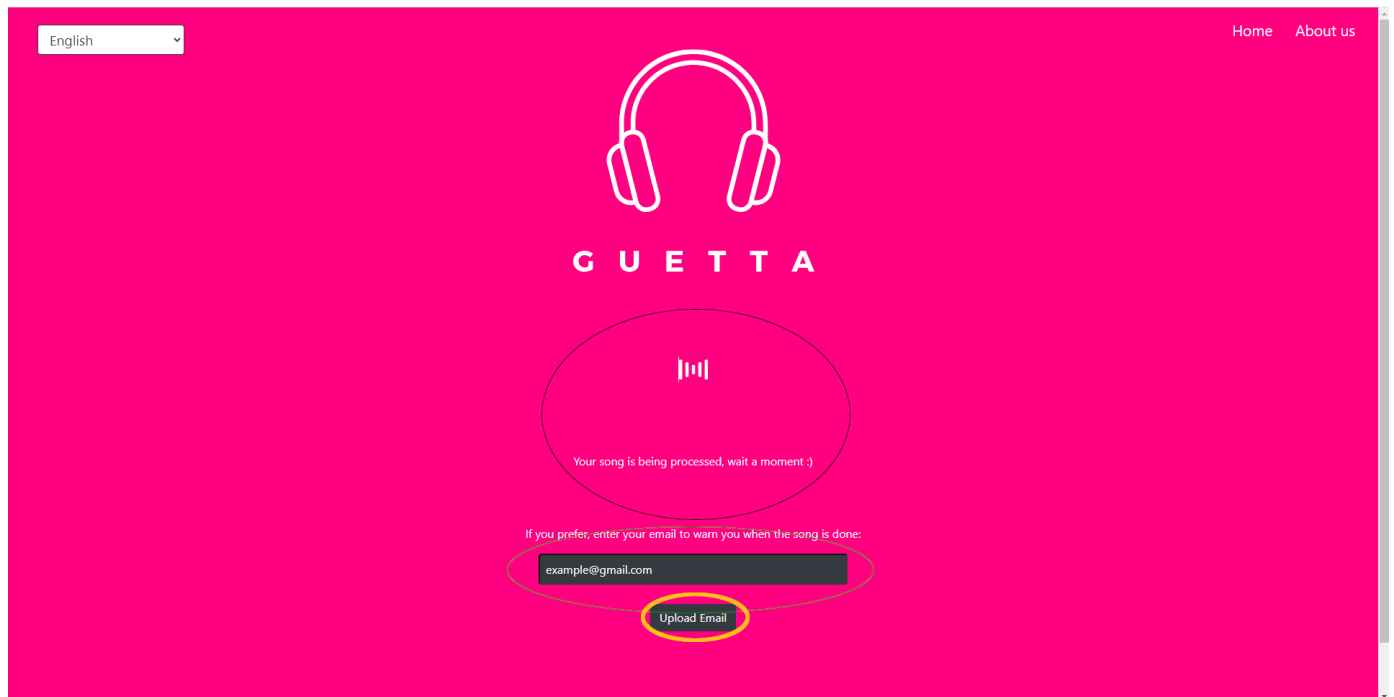

Click [here](#) to open the file browser of your system:

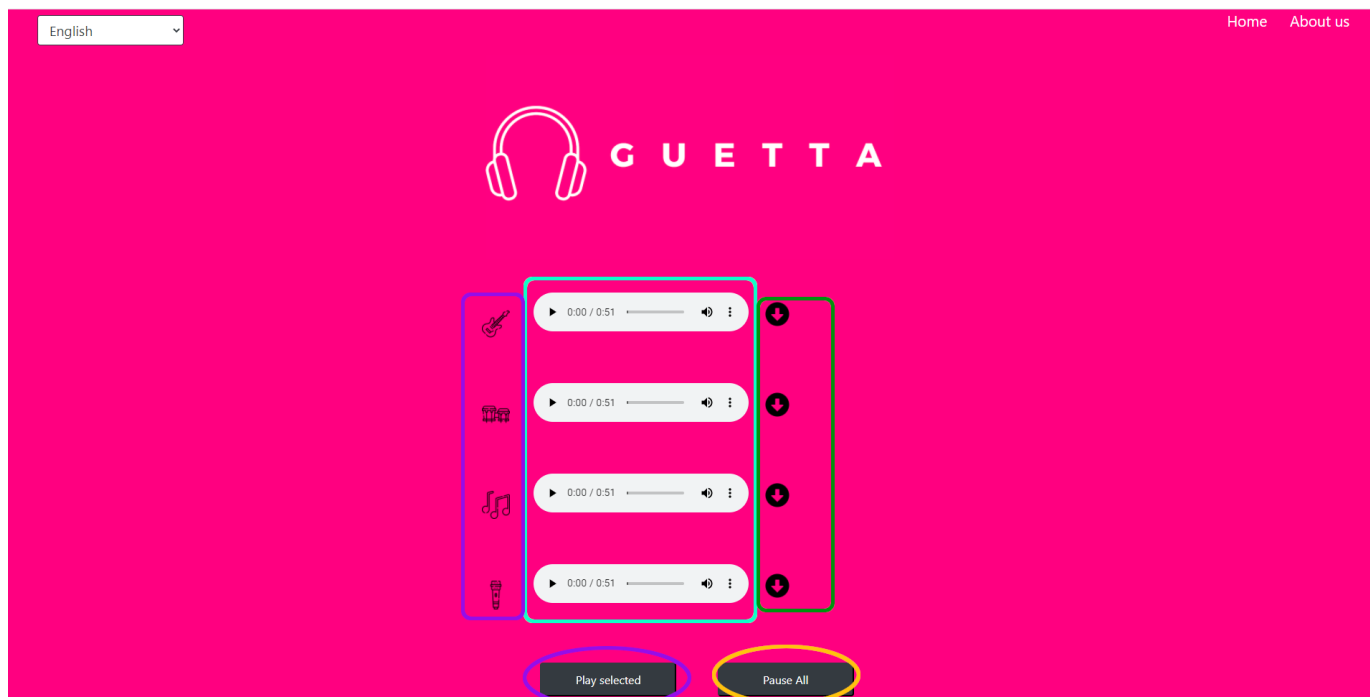

Select **your desired mp3 file** and click “**Open**”, then your file will be selected, and click on **Upload File** to start the separate process.

Congratulations! The separate process of your song has started! Now you can wait for the process to be finished or **leave us your email address** and we will notify you when it ends.

The screenshot shows a web interface with a bright pink background. At the top left is a language dropdown menu set to 'English'. At the top right are links for 'Home' and 'About us'. In the center, there is a white outline of headphones above the word 'GUETTA' in white capital letters. Below this is a large white oval containing a white play button icon and the text 'Your song is being processed, wait a moment :)'. Underneath the oval, a small line of text reads 'If you prefer, enter your email to warn you when the song is done:'. This is followed by a dark grey text input field containing the placeholder text 'example@gmail.com'. A red dashed oval highlights the input field and the 'Upload Email' button below it. The button is a dark grey rectangle with the text 'Upload Email' in white.

If you wrote it, click on **Upload Email** and we will save it to notify you.

The process has ended! Here you can **listen** to every separated track, **select what you want to listen and listen to it** and **download every track you want**. You have a button to **stop and reset all tracks**. If you left your email before, you received an email like this one with the link to that page to listen or download your tracks.

Your song is ready! >> [Inbox x](#)
